

FACULTY OF BUSINESS, JUSTICE AND BEHAVIOURAL SCIENCES – RESEARCH & GRADUATE STUDIES BULLETIN

ISSUE 1: SEPTEMBER 2016

Welcome to the **FIRST** edition of the Faculty of Business, Justice and Behavioural Sciences (FoBJBS) Research and Graduate Studies Bulletin.

The bulletin will be produced the first week of every month and will profile all aspects of research being undertaken within the Faculty. The bulletin seeks to outline current opportunities for both staff and students including professional development, research tools and funding.

The bulletin will be emailed every month to all staff and HDR candidates in the Faculty. If you have a news item, a resource, announcement or a great achievement related to research or HDR candidature you'd like to share, please send it to [Kerry Madden](#) or [Hayley Gifford](#) for inclusion in the next bulletin.

In this month's bulletin:

Research Professional

Do you know about Research Professional (RP)? RP can help you find funding opportunities from around the world, from small grants to large.

Go to www.researchprofessional.com and login – use your CSU email address and request a new password if you've never logged on before.

Over the next few weeks, Kerry Madden, your Faculty Research Liaison Officer, will be creating 'magazines' of funding opportunities for your school or discipline areas, but in the meantime, log on and have a look around.

Please contact Kerry Madden (kmadden@csu.edu.au) if you are having difficulties.

National Science and Research Priorities

These are developed by Commonwealth Government and determine the focus of research funding in any given year. They change each year but are important for large Category 1 grants – particularly the ARC and NHMRC schemes.

<http://www.science.gov.au/scienceGov/ScienceAndResearchPriorities/Pages/default.aspx>

Each year 9 priorities are released – the following are this year's priorities. Researchers in large ARC & NHMRC applications need to show which priority their research links with.

The Priorities

The Australian Government has developed a set of Science and Research Priorities, and corresponding Practical Research Challenges, designed to increase investment in areas of immediate and critical importance to Australia and its place in the world. View one of the fact sheets below.

- [Food fact sheet](#)
- [Soil and water fact sheet](#)
- [Transport fact sheet](#)
- [Cybersecurity fact sheet](#)
- [Energy fact sheet](#)

- [Resources fact sheet](#)
- [Advanced manufacturing fact sheet](#)
- [Environmental change fact sheet](#)
- [Health fact sheet](#)

The key word for this year is **innovation** - the Commonwealth Government research the National Innovation & Science Agenda (which is worth reading) - <http://www.innovation.gov.au/page/innovation-and-science-australia>
