Faculty of Business, Justice and Behavioural Sciences – Research & Graduate Studies Bulletin

ISSUE 3: MAY 2017

Welcome to the THIRD edition of the Faculty of Business, Justice and Behavioural Sciences (FoBJBS) Research and Graduate Studies Bulletin for 2017.

If you have a news item, a resource, announcement or a great achievement related to research or HDR candidature you'd like to share, please send it to Kerry Madden or Hayley Gifford for inclusion in the next bulletin.

In this month's bulletin:

HDR Candidate news

- Save the date: 2017 Higher Degree by Research Symposium

- 201730 Progress reporting round now open

- Academic writing workshops, May

- Face to face professional development sessions in Wagga Wagga

Faculty Research news

- Research Workshop led by Professor Clive Hamilton: 7 June

- Upcoming workshop for researchers: Research Writing Resources: Robert Faff workshop

- Research Professional

- The new Budget Approval form

- Professional Development

- What's new at the Library

- CSU Learning Analytics Research Network (LARN) launch

- Upcoming Seminars for Centres/Schools

  - Centre for Law and Justice

- Schools of Management and Marketing and Accounting and Finance

- School of Computing and Mathematics

- BJBS in the media

- Available grants

- FoBJBS Human Research Ethics Committee

  - New Low Risk Checklist
  - New HREA form (replacing NEAF)

- Publications

HDR Candidate news

Save the date: 2017 Higher Degree by Research Symposium

When: 16th & 17th October
Where: Wagga Wagga

Higher Degree Research students, along with their supervisors, are asked to save the dates of Monday 16th October and Tuesday 17th October for the Faculty Higher Degree by Research Symposium and Dinner in Wagga Wagga.

The symposium will provide an opportunity for students to present their work and participate in workshops with their supervisors, other HDR students and senior researchers.

Registration fees for the symposium will be covered by the faculty, including meals and one night accommodation in Wagga Wagga on the 16th October (for those travelling to attend).

Formal invitation to follow

Back to top

201730 Progress reporting round now open

A reminder that the 201730 progress reporting round is now open. HDR candidates are requested to complete their part of the report and submit to their Principal Supervisor by the 10th May. Final submission of reports to the Faculty is due by 31st May. If you have any questions or concerns about completing your report, please contact Hayley Gifford.

Back to top

Academic writing workshops, May

The following sessions are coming up in March and April. These are provided for Higher Degree Research Candidates, but as always, all other staff and students are warmly welcome. Follow the links below to register for each session. If you have any questions, please contact Cassily Charles – ccharles@csu.edu.au

1. Three Minute Thesis preparation workshop – 12pm-1pm, Thursday, 4th of May – online – More details and registration: https://connect.csu.edu.au/prep3mt2017/event/event_info.html
2. Proofread your own grammar – 12pm-1pm, Monday, 8th of May – More details and registration: https://connect.csu.edu.au/proofread2017/event/event_info.html
3. Audit Your Time – 6pm-7:30pm, Monday, 8th of May – online – More details and registration: https://connect.csu.edu.au/audit2017/event/event_info.html
4. Quoting and paraphrasing the literature – 12pm-1:30pm, Thursday, 11th of May – online – More details and registration: https://connect.csu.edu.au/paraphrase2017/event/event_info.html
5. Academic writing style, Part 1 – 1pm-2pm, Monday 15th May – online – More details and registration: https://connect.csu.edu.au/acadstylepart1/event/event_info.html
6. Academic writing style, Part 2 – 1pm-2pm, Tuesday 16th of May – online – More details and registration: https://connect.csu.edu.au/acadstylepart2/event/event_info.html
7. Developing your 'voice' as a research writer – 6pm-8pm, Wednesday 17th of May – online – More details and registration: https://connect.csu.edu.au/voice2017/event/event_info.html
8. Three Minute Thesis practice and feedback session – 12pm-1pm, Monday 22nd of May – online – More details and registration: https://connect.csu.edu.au/practice3mt2017/event/event_info.html
9. Verb tenses in the thesis – 1pm-2pm, Wednesday the 24th of May – online – More details and registration: https://connect.csu.edu.au/tenses2017/event/event_info.html

Face to face professional development sessions in Wagga Wagga

Three courses from Intersect are being delivered face to face on the Wagga Campus. Each workshop is open for 15 participants. Email: researchpd@csu.edu.au to reserve your place.

Excel for Researchers
This is a full day course on 31 May 2017, 0930 - 1630. Wagga Library Training Room.
You'll learn how to:
● Find, import and 'clean up' messy research data
● Organise, format and name your data in Excel
● Analyse your data (answer research questions)
● Interpret your data (filtering, conditional formatting)
● Perform calculations on your data (max, min, average)
● Extract significant findings from your data (pivot tables)
● Manipulate your data (data conversion, dates and times)
● Create graphs and charts to visualise your data.

Data Visualisation with Google Fusion Tables
This is a half-day course on 1 June 2017, 0930 - 1230. Wagga Library Training Room.
You'll learn how to:
● Import data into Google Fusion Tables
● Merge multiple data sets in Fusion Tables
● Create interactive heat maps on a Google Map
● Vary the way the visualisation is presented in Fusion Tables Preparation Google Fusion Tables is an experimental Google Drive app.

A personal Gmail account is required to participate in this course. Institutional accounts, such as those at universities, will not work.

[Cleaning & Exploring your Data with Open Refine](#)
This is a half-day course on 1 June 2017, 1300 - 1630. Wagga Library Training Room.
You'll learn how to:
● Download, install and run Open Refine
● Import data from csv, text or online sources and create projects
● Navigate data using the Open Refine interface
● Explore data by using facets
● Clean data using clustering
● Parse data using GREL syntax
● Extend data using Application Programming Interfaces (APIs)
● Export project for use in other applications Cleaning & Exploring Your Data with Open Refine.

Professor Clive Hamilton One-day Research Workshop - 7 June

NOTE: EOI closing date for this workshop has been extended to **12 May** and is now open to final year PhD students.

Do you want your research to get noticed? Change how people think?

Following on from the highly successful December workshop in Wagga Wagga, CSU is once again hosting a one-day workshop led by Professor Clive Hamilton aimed at helping CSU early and mid-career academics raise the public profile of their research.

The workshop will ask: What makes a research paper interesting to the public? Which outlets should you aim to get into – the newspapers, ABC News, The Conversation, a specialist program on the ABC? Should you aim at a global audience? How can you work with the University's Media Office to get your research ideas and results out there? What makes for a good media release?

Sunanda Creagh, an editor from The Conversation, will join the workshop to talk about how to pitch articles to The Conversation.

Workshop numbers will be limited to 7-9 to ensure interaction and some personalised attention to your research project. Early and mid-career academics from all disciplines and final year PhD students are welcome to apply.

If you would like to participate, please write a one-page EOI setting out your position at the University, your research areas, and a statement of your interest in the workshop.
The EOI deadline has been extended to **12 May.**

Upcoming workshop for researchers: Research Writing Resources: Robert Faff workshop

'Pitching Research'

The Pitching Research workshop will give an overview of Professor Faff's 'Pitching Research' framework. Specifically, he has developed a simple and methodical template tool to clarify thinking and sharpen up the drafting of initial proposals for research projects, well before any major effort has taken place to execute the research. This 'pitching research' template is of particular relevance to beginning PhD students and to early career researchers facing the common challenge of starting a new piece of research, that they can be confident is worthwhile. But, even for researchers beyond the initial proposal stage of their project, there is likely to be considerable merit in rethinking the project at regular intervals to keep it on track. The notion of 'pitching' the project anew can benefit the project in many ways, not least of which is retention of focus, trimming tangential matter, recalibrating the scope and refining the method to match the type and amount of data that turns out to be available.

About Professor Faff

Professor Faff is Research Director, UQ Business School. Robert has an international reputation in finance research: securing 13 Australian Research Council grants (> $4 million); >300 refereed journal publications; career citations >9,800; h-index of 50 (Google Scholar). His particular passion is nurturing and developing the career trajectories of early career researchers. Robert has supervised more than 30 PhD students to successful completion and examined 50 PhD dissertations. Building on a 35-year academic career, his latest passion is 'Pitching Research', now gaining great traction domestically and worldwide as exemplified by: >9,400 SSRN downloads; >160 pitching talks/events; at 36 Australian universities; and spanning 37 countries.

When / To Register:

This session is being run face to face on Wagga Campus on 25 May, 3pm-4.30pm to a live/limited audience plus will be available to watch live, via adobe connect.

To register via adobe connect - **https://connect.csu.edu.au/pitres0516/event/event_info.html**
To attend in person please email researchpd@csu.edu.au.

Back to top

Research Professional

Don't forget the great resource we have in ResearchProfessional. While we are working on a strategy to help find sources of funding for specific discipline areas, you are the one that knows your research best, and are the best person to run searches on RP. You can also set up alerts to let you know when new grants come up.

Also available is GrantReady – this database lists funding opportunities in Australia, both with a business focus and community focus.

If you need assistance with either of these databases, please contact Kerry Madden.

Back to top

The new Budget Approval form

The Research Office is pleased to release the new Budget Approval Form (BAF). The BAF can be used to calculate the full cost of research projects. Researchers are encouraged to note advice contained in the BAF 'User Guide – Instructions' when completing the form.

For **funded projects the BAF is compulsory** and the lead CSU researcher on the project is responsible for completing the form and submitting it to the Research Office, via: research@csu.edu.au   The BAF is used to establish an approved project budget within CSUs Banner Finance and Research Master systems.

For **new funding applications**, researchers are encouraged to utilise the BAF during grant development to prepare a project budget prior to an application being submitted to an external funding organisation.

The Research Office is holding a number of short online sessions demonstrating how to make best use of this form, below are the dates, times and links to register.

Wed 10 May. 10-11am – **https://connect.csu.edu.au/baf1/event/event_info.html**

For assistance completing the BAF researchers can contact their Faculty Liaison Officers, Research Centre Business Managers, or the CSU Research Office on 02 6933 2578 or via email research@csu.edu.au

The Budget Approval Form can be accessed here.

Back to top

Professional Development

The 2017 Calendar has been updated, have a look through all the great opportunities to support your candidature and/or research. Some have restricted places, so register early.

Also, if you have/know of a program you would like to promote via this calendar or Bulletin, please advise the Research Office Professional Development Team via researchpd@csu.edu.au.

What's New at the Library?

Have you seen the changes to the Sage Research Methods Online database? You can now access datasets as part of your searches on SRMO. Have a look at our Research Methods page. If you would like to find out more, or have any other questions about the Library's resources, contact one of the Faculty Liaison Librarian team.

Or you can attend one of our upcoming training sessions:

9th May 2017	Online	Establishing a Research Profile
11th May 2017	Online	EndNote for Windows
16th May 2017	Online	Endnote Online + iPad
18th May 2017	Online	Finding & Using Theses & Dissertations
24th May 2017	Online	Staying up to date with Research Alerts
30th May 2017	Online	Presenting Research Metrics for Grants and Promotion

31st May 2017	Online	[Finding Research Funding Opportunities including Research Professional](#)

CSU Learning Analytics Research Network (LARN) – invitation to attend launch

The Division of Student Learning is pleased to announce the launch of the **CSU Learning Analytics Research Network** (LARN) – an initiative we thought might have relevance to you and your colleagues.

Learning Analytics, the application of data and technology to enhance learning and teaching, is a growing area of research across higher education. Recently, many large national grants have been awarded to projects focussed on learning analytics tools.

The LARN aims to connect CSU academics to lead cutting-edge *multi-disciplinary* research in this field. There are substantial opportunities for research and innovation in bringing together educationalists and learning scientists, computer scientists (especially those working in the areas of machine learning and AI), data scientists, psychologists and others.

Join us at **3pm on Weds 17 May** to welcome **Professor Simon Buckingham Shum** as he helps us to launch the CSU Learning Analytics Research Network (LARN).

Simon is a Professor of Learning Informatics and the Director of the Connected Intelligence Centre at UTS. A highly published researcher, he was one of the founders of the Society for Learning Analytics Research (SoLAR) and will talk to us about research opportunities in learning analytics. The CSU Scholarship in Online Learning Group (SOLG) is delighted to host the launch of this new focus on research in this powerful emerging field.

If you have a research interest in these fields or are interested in learning and teaching research within your discipline, we would encourage you to attend the LARN launch event to start to meet some potential collaborators.

Meeting Details

To access the meeting invitation (which contains the video-conference details), double click the link below and select "accept". This will place the appointment into your calendar.

Upcoming Centre/School Seminars

- o **Centre for Law and Justice**

Thursday 25 May (3-4 pm): Presenter: Ruth Townsend. Title: 'Should Australian paramedics be regulated as health professionals'.

Abstract: Like some other health practitioners, paramedics have not always worked in the same way that they do today. For most of their history, paramedics were essentially stretcher bearers who could apply a bit of first aid. However, in the past 40 years, with advances in technology and medical research, the role of the paramedic has expanded massively to now include a broad range of high risk interventions performed in largely uncontrolled and unsurveilled environments. These interventions include sticking fingers into bodies, with patients who are often disrobed, they deliver babies, administer restricted drugs like anaesthetic agents and opioids via injections under the skin and into the bone marrow yet, they are not subject to the same regulation as other health professionals are. Only a year or so ago anyone could have called themselves a paramedic, without any medical training at all, and not have been in breach of the law. There are currently no regulatory requirements that establish a minimum standard of education for entry to the profession, and management of incompetent paramedics, or those who engaged in misconduct are not subject to standardised, transparent disciplinary proceedings despite the high level skills and high risk interventions that they perform. This presentation will discuss issues identified in my PhD research which sets out to answer the question whether, in light of the work paramedics now do, paramedics in Australia should be regulated the same way as other health professionals and further, attempt to demonstrate how the law can facilitate paramedicines' transition from stretcher bearer to health professional and what this change in regulatory status might mean for paramedics in the future.

You can attend the following video conference facilities or dial in from your computer: VC ADM CA01 860.104; VC ADM MA01 3004.105; VC ART BA01 1399.204;   - Restricted - Call 84061 before booking; VC ART WW01 21.102; VC ADM PT01 801.2008

- o **Schools of Management and Marketing and Accounting and Finance**

10 May   Arnela Ceric
17 May   Clifford Lewis, Department of Industry

Venue: School Meeting Rooms on each campus (1411-431 in Bathurst, 764-204 in Thurgoona and 28-214 in Wagga and VC room in Orange).

o **School of Computing and Mathematics**

10 May	Oliver Burmeister & Zahidul Islam	"Healthy aging"
17 May	Xufeng Lin	"Digital forensic"
31 May	Rashina Huda	(Mohsin Iftikhsar's collaborator)
28 June	Li-Minn Ang	Sensing
5 July	Quazi Mamum	E-Health
12 July	Zahid Islam	Data mining

Venue: School Meeting Rooms on each campus (1411-431 in Bathurst, 764-204 in Thurgoona and 28-214 in Wagga and VC room in Orange).

BJBS in the Media

Business Hub to inspire Indigenous entrepreneurial spirit

A program to help Indigenous businesses grow and succeed was launched in Albury on Wednesday 5 April by CSU and the NSW Government's Boosting Business Innovation Program.

The Walan Mayinygu Indigenous Entrepreneurship Pop Up Hub, developed by CSU Associate Professor Michelle Evans, aims to further nurture Indigenous businesses across NSW in 2017.

"Walan Mayinygu, which means 'strong for people' in Wiradjuri, is about strengthening Indigenous entrepreneurship and business nous at the regional level in grassroots firms across NSW," explained Professor Evans from the University's

New Regional businesses need better support

CSU experts in starting up businesses in regional areas worldwide believe these start-ups need and deserve more support than their city cousins. Entrepreneurs and small business managers in capital cities and other urban areas enjoy better developed and more supportive 'entrepreneurial ecosystems' than their counterparts in regional Australia," said Professor Morgan Miles, who recently joined CSU from the University of Canterbury in New Zealand.

"These ecosystems, which are very specific to the location of the business, encompass access to a vast array of services and conditions that encourage businesses, from personal business skills to national and local government policies.

Available Grants

- **Endeavour Scholarships and Fellowship 2018 Round now opened**

The program provides opportunities for Australian postgraduate students, and postdoctoral researchers to undertake international research and professional development in an eligible country overseas. It also supports university staff, including general and administrative university staff to undertake professional development overseas under an Endeavour Executive Fellowship.

Providing opportunities for Aboriginal and Torres Strait Islander peoples is of great importance to the Department of Education and Training and we are seeking your assistance to promote the *Endeavour Research Fellowship for Indigenous Australians* within your universities' Indigenous research centres and communities. Should you wish to talk to our team about promotional materials please contact endeavour.promotions@education.gov.au

International applicants are supported to undertake a full Masters or PhD qualification, as well short-term research at your university. The program is an excellent opportunity for research schools to develop international research linkages.

Please encourage potential applicants to read the Application Guidelines and the FAQs section of the Endeavour Scholarships and Fellowships website. Should an applicant have further questions they may email the Endeavour inbox directly on endeavour@education.gov.au

The department has tweeted about the opening of the round and we would encourage universities to retweet this message. http://twitter.com/eduspokesperson?lang=en

Applications close at 11:59pm (AEST) 30 June 2017.

http://internationaleducation.gov.au/endeavour

- **Australia-Germany Research Scheme**

Applications are now open for leading researchers in the early stages of their careers to go on research exchange between Australia and Germany.

Administered nationally since 2015 by Universities Australia with partner organisation, the German Academic Exchange Service (DAAD), the Australia-Germany Joint Research Cooperation Scheme has already funded over 170 collaborative research projects.

Chief Executive Belinda Robinson said that research was increasingly international and programs like this one were important to keeping Australia connected to the global research community.

"Germany is well-known as one of the world's leading research-intensive countries and has an excellent reputation for international research collaboration," said Universities Australia Chief Executive Belinda Robinson.

"After the United States and the United Kingdom, Germany ranks third for joint research publications with Australian universities, so it's vital for Australian researchers to make connections with their German counterparts," she said.

The DAAD is the largest funding organisation in the world supporting the international exchange of students and scholars.

The scheme funds travel and living costs, enabling Australian researchers to spend time in Germany working alongside their German counterparts and bringing German researchers to Australia to work in local research institutions.

"For many Australian universities, Germany is already one of the top priority countries for international research collaboration. And we are delighted that 35 of Australia's universities have decided to take part in the scheme this year."

The scheme is open to Australian researchers at participating Australian universities in all academic fields involved in a collaborative project with German research partners.

Since the first round in 2015, this scheme has funded 172 collaborative projects at a total investment by the DAAD and Australian universities of around AUD $6 million.

Applications are open until 16 June 2017. The scheme acknowledges the support of the Australian Government Department of Education and Training.

Further information including the application form, and terms and conditions is now available on the [Universities Australia website].

- **Horticulture Innovation Australia**

http://horticulture.com.au/tenders/

Investigating the impact of green space on individuals who have experienced trauma

Request for Proposal: Investigating the impact of green space on individuals who have experienced trauma (GC16003)

Horticulture Innovation Australia is seeking a suitably experienced and qualified firm to provide a program for "Investigating the impact of green space on individuals who have experienced trauma" that fits within the theme of "culture and community" under the Green Cities Fund. The research project will build on the current pool of knowledge on the links between mental health and green space to provide empirical evidence on the therapeutic use of green space specifically for people experiencing trauma. People who are experiencing trauma may include people with mental health issues such as dementia, homeless people, refugees and other immigrant populations with little community support.

The project should be longitudinal and the delivery partners will be expected to partner with existing organisations working with people who experience trauma. There may also be opportunities to develop some cost benefit data on the relationship between broad based trauma and urban green space.

Horticulture Innovation Australia has prepared a Request for Proposal (RFP) document that provides background information, outlines the scope of services, the procurement process and the information required from interested parties. The RFP is available from tenders.net (you will need to be a member of tenders.net to access this).

The closing date for responses is 5pm, May 30, 2017.

Faculty of Business, Justice and Behavioural Sciences (FoBJBS) Human Research Ethics Committee

The next meeting of the Faculty of Business, Justice and Behavioural Sciences Human Research Ethics Committee will be held on **Tuesday 16 May 2017.** The submission deadline for new applications for this meeting is **Monday 8 May 2017 at 3.00 pm.**

- **New Low Risk checklist**

A revised checklist has been developed for researchers to determine whether their application for ethical review of their research involving humans should be sent to the Charles Sturt University Human Research Ethics Committee (HREC) or their respective Faculty Human Research Ethics Committee. The Low Risk review checklist can be found on the HREC website.
http://www.csu.edu.au/research/ethics_safety/human/hrec_application

- **New Human Research Ethics Application (HREA)**

The NEAF form has been replaced by the Human Research Ethics Application (HREA) which is available at: https://hrea.gov.au/ together with a 'Getting started Guide' and a 'How to Guide'.

Please note that a Project Description/Protocol is a **mandatory** attachment to a HREA application. Please tailor the suggested headings to meet the needs of your project, ensuring that you provide adequate context and justification for your proposal.

Supporting documentation may include:

- Participant Information Sheets Guidelines
- Participant Information Form
- Participant Consent Forms Guidelines
- Consent Form
- interview questions
- focus group questions
- questionnaires/surveys
- advertisements

Please send the HREA with all other documents combined in Adobe into one pdf.
